

AGILE GURUGRAM 2021 CONFERENCE

01ST OCTOBER * 06.00 - 10.10 PM IST

- ONLINE

ABOUT THE CONFERENCE

Agile Gurugram is Agile Network India's flagship conference bringing all the best, most emergent ideas about Agile, and some of the most important global minds working in the field under one roof. It has stood tall as one of the most important platforms for the Agile community in India since its inception in 2016, and has proudly featured some of the most important knowledge-sharing, networking, keynotes and professional interactions for Agile practitioners, Business Leaders, Executives and Professionals all over.

It now proudly returns for its sixth successive iteration this year, and provides a platform to enable forward thinking, goal oriented professionals towards building better ideas towards their organizations.

CONFERENCE THEME

The Theme of the Conference is based upon Agile in Product Development and Startup.

We are living in the VUCA world and developing valuable products is challenging. The project-management based workflow processes to deliver Products are not effective and efficient as customer's wants and needs get changed by the time it reaches them.

The challenge starts from identifying the customer's needs when they themselves are not aware of them. This is where the significance of Agile in Product Development comes into the picture, it is about shifting from a Project Mindset to a Product Mindset. In Agile Gurugram 2021, we are going to immerse ourselves in this Product Mindset with Startup Culture.

PANEL THEME

The Theme for the Panel Discussion is based upon Agile Product Development Leadership with Startup Culture.
